

2. International Noninvasive Conferences 5th-6th October 2019- Süreyyapaşa İstanbul-Turkey

Dear Colleagues,

We would like to invite you to 5th-6th October, 2019, 2. International Noninvasive Mechanical Ventilation Conference, and to our wonderful- host city of İstanbul-Turkey.

We are happy to meet international collaboration and younger colleagues in Turkey. Attendees of the Conference would have chance to talk many different countries' physicians who are mostly related with noninvasive mechanical ventilation. As an attendee of can follow-up educational programs, specialized and practical bedside trainings and a strong focus on daily practice in 2. International Noninvasive Mechanical Ventilation Conference. There are three main topic areas that the event will focus on this year's annual Conference are: firstly the need and the use of noninvasive ventilation in patients with different diseases, secondly high flow oxygen use with noninvasive mechanical ventilation, thirdly education of noninvasive mechanical ventilation philosophy.

It is a wonderful opportunity to meet peers, colleagues and experts and discuss your problems and own projects face to face with clinicians and healthcare professionals from all over the world.

Collaboration is our power to continue and to improve patients' breath with noninvasively.

We would like to thank everyone for their involvement with and in contributing to 2. International Noninvasive Mechanical Ventilation Conference.

Sincerely
