Republic of Türkiye Ministry of Health

University of Health Sciences

Istanbul Süreyyapaşa Chest Diseases and Thoracic Surgery
Training and Research Hospital

Dear Colleagues,

We would like to invite you to 21st-22nd October 2022, 4. International Noninvasive Mechanical Ventilation Conference (Hybrid), and to our wonderful- host city of Istanbul-Turkiye.

We are happy to meet international collaboration and younger colleagues in Turkey as **in person** and **on virtual**. Attendees of the Conference would have chance to talk many different countries' physicians who are mostly related with noninvasive mechanical ventilation. As an attendee of can follow-up educational programs, specialized and practical bedside trainings and a strong focus on daily practice in **4. International Noninvasive Mechanical Ventilation Conference**. There are three main topic areas that the event will focus on this year's annual Conference are: firstly, the need and the use of noninvasive ventilation in patients with different diseases, secondly high flow oxygen use with noninvasive mechanical ventilation, thirdly education of noninvasive mechanical ventilation philosophy. It is a wonderful opportunity to meet peers, colleagues and experts and discuss your problems and own projects face to face with clinicians and healthcare professionals from all over the world. Collaboration is our power to continue and to improve patients' breath with noninvasively.

Sincerely
